

thermal energy system

Now Available with a 250,000 BTU Boiler.

Looks like the traditional testm ...

but comes with an extra textm box and two 50' hoses.

thermal energy system

250,000 BTU Package

The new 250,000 BTU testm (thermal energy system) unit can now handle five to six textm (thermal exchange) boxes. It looks the same (slightly bigger frame) but comes with an extra tex box, two more sections of 5/8" 50' length hose, extra quick connect splitter, wraps, and of course the extra 50,000 BTU over the standard tes.

THE COMPLETE PACKAGE SELLS FOR \$20,994.00

- High speed structural evaporation and drying system
- Includes base unit with handle
- T assemblies, QD Wraps
- 5 textm units with two 50' hoses each

TES KEEPS GETTING BETTER!

- Same BTU's as the competition
- Much less expensive
- Portable or trailer mounted versatility
- Use one textm box or all five

Desert-dry in
record time

SUGGESTED RENTAL FEES (as in Xactimate):

tes tm power unit, 250,000 BTU	= \$ 900 per day
tex tm box w/ air mover \$205 each x 5	= \$1025 per day
tes tm evacuation/exhausting system \$75 each x 2	= \$ 150 per day
Total	<hr/> \$2075 per day

* Currently built-to-order only. 2-4 week lead time.
