(For use by Licensed Electricians)

The G-Unit allows you to use 240V dryer and range circuits for your 120V airmovers, E-TES, and dehumidifiers. The power unit plugs into an existing range or dryer 240V electrical receptacle and converts it into 8, 120V outlets. Each receptacle is GFCI protected. The Power Distribution Unit and its adapters fit neatly inside a rugged case for easy transportation and storage.

#AC8481
